Packaged to Perfection

Revolution Tea Introduces Two- and Five-Pack Samplers

TEMPE, Ariz. — (November 2003) Revolution Tea, America's Tea Company, introduces new Sampler packs designed for convenience and utility. Now available in handy two- and five-packs, Revolution's 10 most popular flavors are packaged to perfection.

Both Samplers feature full-leaf tea delivered in a unique infuser tea bag with each nylon bag individually wrapped in the award-winning Tea Box Revolution. The Five-Pack Sampler is ideal for gift baskets and gourmet retail sales, while the Two-Pack Sampler is designed for resort, hotel in-room beverage programs and spa amenities.

The first Five-Pack Sampler contains individual servings of Revolution's tried and true original flavors: Sweet Ginger Peach, Tropical Green, Earl Grey Lavender, Golden Flowers Herbal and English Breakfast. A second Five-Pack Sampler offers Revolution's wildly popular new flavors: White Tangerine, Honeybush Caramel Dessert, Royal Plum Decaf, Southern Mint Herbal and Bombay Chai. Each Two-Pack Sampler contains two individual servings of either the same flavor or a variety of Tropical Green and Earl Grey Lavender.

Revolution Tea, founded in 1998, specializes in high-quality, full-leaf tea served in the Revolution Infuser Tea Bag™, the industry's most innovative tea bag made with nylon, rather than paper, which partially dissolves during the brewing process. The infuser bag replicates the process used in tea balls and teapots – full steeping of tea leaves brings out the best possible flavor. Revolution Tea uses only premium full-leaf tea rather than the fannings or dust used by the majority of tea companies. By carefully choosing the finest full-leaf tea and packaging it in nylon bags, Revolution Tea is stirring up a new and refreshing taste in the tea industry.

Revolution Tea was founded with a mission to bring better tasting tea to tea drinkers everywhere. Available for the restaurant, hospitality, spa and retail industries, Revolution Tea offers more than 20 different tea experiences for everyone's taste.
